ASEE MIND / WEPAN WEBINAR SERIES

Host

Shawna Fletcher

Director, Women in Engineering Program Texas A&M
ASEE MIND Member at Large

Moderator

Dr. Darryl Williams

Research Associate Professor, CHBE
Associate Dean for Undergraduate Education
Director, Center for STEM Diversity Tufts University
ASEE MIND President

About WEPAN www.wepan.org

Core Values: Knowledge, Collaboration, Inclusion and Leadership

1000 members from 200 engineering schools, corporations, government, non-profits

WEPAN Knowledge Center

A screenshot of the WEPAN Knowledge Center website. The header features the WEPAN logo on the left, which includes a starburst icon and the text "WEPAN Women in Engineering ProActive Network Knowledge Center". On the right, there are navigation links: "FAQs | About Us | Media Center | Sign In". Below the navigation is the tagline "Respected. Relevant. Reliable." followed by a descriptive sentence: "The WEPAN Knowledge Center is your online resource for research, best practices, and professional communities dedicated to advancing all women in engineering." A prominent call-to-action button reads "Enter the Professional Community >". The main content area is divided into three sections: a search bar with the text "Search the Knowledge Center:", a search input field, and a "Search" button; a central image showing a diverse group of smiling professionals in business attire; and a "What's New in the WEPAN Knowledge Center" section with two article teasers: "Making Machines Talk: Formulating Research Questions" and "HIV Microbicides: Rethinking Research Priorities and Outcomes", followed by a "... more" link. At the bottom left of the search bar, there is a link for "Advanced Search >". At the bottom right of the search bar, there is a link for "Already a registered user? Login or Register".

WEBINAR GENERAL INFO AND Q&A

Webinar uses Voice Over Internet

If sound quality not good, teleconference line available:

Phone: +1 (562) 247 - 8422

Access Code: 906 - 117 - 444

Audio Pin: Check your screen after dial in

**phone and access code information is on your calendar

- Participant microphones are muted for quality
- Stay with us if we are temporarily disconnected

WEBINAR GENERAL INFO AND Q&A

Please post your questions during the webinar

Undock / expand “Questions” pane in control panel

We will stop for questions at the end of the webinar.

Presenter(s) will stay on the line for up to 10 minutes after webinar ends

Download PowerPoint and link to recorded webinar at www.wepan.org > Webinars

Written transcript also available, upon request

WEBINAR GOALS

- Share what we learned in planning a NSF-sponsored working conference; give specific examples that are transferrable to other meeting settings
- Challenge the engineering community to establish a new accountability for hosting inclusive **events**

WEBINAR OVERVIEW

- About our event
- Disrupting academic hierarchy and traditional meeting norms (**Julie**)
- Designing for inclusivity rather than around accommodations (**Shannon**)
- Critical lessons and challenges (**Amy**)

WHO'S NOT AT THE TABLE? BUILDING RESEARCH CAPACITY FOR UNDERSERVED COMMUNITIES IN ENGINEERING

- Working conference for 65 participants
- Overarching (longer- term) goals:
 - Develop a [research agenda](#) for broadening participation by people having disabilities, veterans, low income/first-generation persons, persons of LGBTQ+ identity
 - Write a [white paper](#) that summarizes the collective insights on conference themes from participants

WHO'S NOT AT THE TABLE?: RESEARCH PRODUCTS

- Publishing the [process](#) we created for developing research agenda at ASEE 2017 (Developing a National Research Agenda: A Data Collection and Community Engagement Model)
- Writing a “[beginner's guide](#)” to hosting inclusive events (starting with this webinar)

DISRUPTING ACADEMIC HIERARCHY & TRADITIONAL MEETING NORMS

- Incorporated Ph.D. student researcher as full member of team
- Started the event with meeting norms
- Purposely disrupted expectations of who holds expertise
 - Treated everyone as a learner & an expert, starting with pre-conference communications
 - Did not talk “at” participants

GIVING EVERYONE EQUAL VOICE

- Before the event we used Slack.com platform with discussion threads monitored by advisory board members
- We started event with advisory board members summarizing the Slack discussions in a panel format, then each guided a breakout discussion
- Asked participants to create a non-traditional poster; hosted a session on 1st day
- We put microphones in participants' hands
 - The conversation was not a person asking an expert speaker; the conversation was taking place *between* participants

CONFERENCE NORMS

- Let's agree to treat each other (and our ideas, experiences, backgrounds) with respect. That includes not making assumptions, giving others the benefit of the doubt and being open to considering alternative thoughts, ideas, opinions and behaviors.
- Let's embrace being comfortable with hearing multiple ideas and waiting to make definitive statements.
- Let's be inclusive of all modes and styles of communication, and ensure that everyone has a voice here. Some of our participants communicate primarily through American Sign Language.
- To make sure that everyone can understand you, and addresses you by your preferred pronoun—before you speak please wait for a microphone.
- Additionally, please state your first name and your preferred pronouns before you speak so that all of us know who is speaking and how you want the group to refer to you. This will also help the ASL interpreters and participants with visual impairments.

BUILT-IN TIME FOR NETWORKING

- Recognized the best conversations always happen in the hallways between sessions at traditional meetings.
- Made networking an explicit part of the event
 - Poster session, meals, breaks
 - Evaluated the outcome

MINI-POSTER SESSION

Name and affiliation (no position title) 32 pt font

Photo
Add alt text as described in the speaker's notes. Proper alt text for a headshot simply uses the person's name.

ABOUT ME:
An engineer by training, I've been working in engineering education for 13 years. I'm passionate about educational access, equity and achieving systemic change in engineering education to make it more inclusive for all students. Two highlights of my career include serving as president of WEPAN (Women in Engineering ProActive Network) and combining my STEM education and policy interests as a AAAS Science & Technology Policy Fellow at NSF. Ask me about my two adorable beagles!

"Identity" box where participants describe any aspects of their identity and interests in 75 words or less

Contact info box 14pt font

Associate Professor of Engineering & Science Education; Women in Engineering ProActive Network (WEPAN) Board of Directors.
martin1@clemson.edu (864) 656-4321

I'M INTERESTED IN THESE RESEARCH QUESTIONS:

- How do current research methods function to erase some identities altogether in analysis of underrepresentation?
- How do ascriptions of identity categories promote a monolithic "normal" experience in engineering education?

A bulleted list of research questions (50 words max)

INTERESTED IN COLLABORATING?

I HAVE TO OFFER:

- A large professional network built through national leadership positions in WEPAN and ASEE.
- Qualitative methodological expertise
- Grant writing and reviewing experience

20-35 words 18pt font

I AM SEEKING:

- To expand my knowledge and use of critical theories
- Ideas for journals to publish my research
- Conversations about ways to translate research into practice & cultural shifts

20-35 words 18pt font

- Evaluator did a social networking analysis as part of the assessment

THE INTENTIONAL NETWORKING WORKED

- Figures 1 and 2 show pre and post directional connections with reciprocated ties marked in blue and non-reciprocated ties marked in black.

Figure 1

Figure 2

- Comparing Figure 1 to Figure 2, the number of reciprocated connections among participants increased significantly post-conference.

Woodruff, S. B., & Li, Y. (2017). Evaluation findings: Social network analysis, Who's Not at the Table? Building Research Capacity for Underserved Communities in Engineering. Oxford, OH: Miami University, Discovery Center for Evaluation, Research, and Professional Learning.

DESIGNING VS. ACCOMMODATING

- The approach that ultimately guided our planning and organizing of this event was the idea of DESIGNING versus accommodating:
 - Thinking about the needs of persons of differing physical ability, gender identity, and other marginalized identities - how they may interact with each other, the materials, and physical spaces
 - DESIGNING the materials/interactions/venue space to incorporate different modes of interaction PROACTIVELY rather than reactively trying to “make it work” when problems arose to accommodate a participant

DESIGNING ACCESSIBLE SPACES BENEFITS EVERYONE

WHO TO TURN TO?

- Adopting perspectives that were foreign to us as White, cisgender female, able-bodied organizers required us to **educate ourselves**
 - **Consulting** with our university's Office of Access and Equity
 - **Seeking advice** from experts and those who have hosted events
 - **Asking** for detailed accessibility considerations from all participants
 - **Following up** with anyone who expresses specific needs so that they may fully participate

COMMUNICATION BEFORE THE EVENT

- **Open application** - accessibility considerations were not factored into acceptance decisions
- **Detailed registration** - included questions detailing requests for accommodation
 - Dietary restrictions, accessibility, travel/lodging accommodations, preferred pronoun to be displayed on name tag
- **Ongoing and open contact with participants** - email/phone calls allowed us to be poised to hear what people needed as the event developed
- **Met with Office of Access and Equity** on campus for help arranging support
 - hiring American Sign Language (ASL) interpreters, identifying wheelchair accessible transportation from airport
- **Coordinate with hotel and venue** to design all spaces to be accessible
 - wheelchair accessible meeting rooms, spatial orientation tour for visually impaired participant, negotiating for a gender-neutral public bathroom, and inquiring about emergency procedures

DESIGNING THE VENUE SPACE

- Microphones for all sessions (hearing accessibility) to make sure everyone could hear and be heard
 - Asked everyone to identify themselves before they spoke for ASL interpreters (hearing accessibility) and asked everyone to share their preferred pronouns (gender inclusion)

Shannon Stefl, Clemson University, she/her/hers ...

- Geographical considerations
 - Height of posters
 - Position of ASL interpreters, location of microphones, round tables
 - Wheelchair accessible floor plan

Floor plan

CLEMSON UNIVERSITY
Conference Center & Inn

Map included in welcome materials

ACCESSIBLE FLOOR PLAN AND MAP

WHO'S NOT AT THE TABLE 10/30-11/1 2016

UNEXPECTED CHALLENGES AND USING PRIVILEGE FOR ADVOCACY

- Insufficient number of wheelchair accessible hotel rooms; “accessible” rooms were ADA compliant however they did not meet the needs of our participants

Throughout our event we consistently found ourselves using our positions of privilege to push the boundary between following the the spirit of inclusion versus “letter of the law”

FLEXIBLE BUDGET

Budgeting for:

- ASL interpreters
- Accessible rooms/transportation
- Larger rooms to allow for all spaces to be wheelchair accessible (including meals)
- Audio/visual costs and technological management during the event

Things we wish we had better designed for:

- Restrooms not wheelchair accessible from the inside (automatic push pads only on outside and doors were too heavy)
- Room for nursing mothers (Lactation room also marked on venue map)

CRITICAL LESSONS AND CHALLENGES

CRITICAL LESSONS AND CHALLENGES

...the possibility of drawing on and contributing to larger conversations about identity, equity and the cultural reproduction of privilege

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?
- Lessons of intersectionality...

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?
- Lessons of intersectionality...
 - single-axis explanations [race, gender, ability] mislead and exclude
 - indeterminacy is to be welcomed

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?
- Lessons of intersectionality...
- The content AND form of our exchanges must take up those challenges (inseparable!)

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?
- Lessons of intersectionality...
- The content AND form of our exchanges must take up those challenges (inseparable!)
 - Form = Space, programming, format

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?
- Lessons of intersectionality...
- The content AND form of our exchanges must take up those challenges (inseparable!)
 - Form = Space, programming, format
 - Form = RESOURCES and LABOR

CRITICAL CHANGES

- Form = Space, programming, format
 - Form = RESOURCES and LABOR
- must be (inseparable)
- Acknowledge, sustain, and remain flexible on both...

CRITICAL CHANGES

- Form = Space, programming, format
 - Form = RESOURCES and LABOR
- Acknowledge, sustain, and remain flexible on both...*The new accountability!!*
- must
(inseparable)
- Form = Space, programming, format
 - Form = RESOURCES and LABOR

CRITICAL LESSONS AND CHALLENGES

- Reflexivity throughout....who are we, what experiences are informing our judgments?
- Lessons of intersectionality...
- The content AND form of our exchanges must take up those challenges (inseparable!)
- We are *always* in and of ENGINEERING, which itself enacts identity and access

PRIVILEGE, PENALTY AND EVENT DYNAMICS

- *“How can we intervene in moments of inappropriate or disrespectful conduct?”*

PRIVILEGE, PENALTY AND EVENT DYNAMICS

- *“How can we intervene in moments of inappropriate or disrespectful conduct?”*
 - Set ground rules, including script for intervention (“We are interrupting because...”)

PRIVILEGE, PENALTY AND EVENT DYNAMICS

- *“How can we intervene in moments of inappropriate or disrespectful conduct?”*
 - Set ground rules, including script for intervention (“We are interrupting because...”)
 - *Build new practices into content and form of event....*

PRIVILEGE, PENALTY AND EVENT DYNAMICS

- *“How can we intervene in moments of inappropriate or disrespectful conduct?”*
 - Set ground rules, including script for intervention (“We are interrupting because...”)
 - *Build new practices into content and form of event....AND into its outcomes*

PRIVILEGE, PENALTY AND EVENT DYNAMICS

- *“How do we handle moments of privilege and misconduct?”*
...script for
...interrupting
bec...
- Build new practices into content and form of event....AND into its outcomes

This, too, is the
new
accountability!

THANK YOU

We would like to extend our sincere appreciation to everyone who helped to make our event possible. Thank you to our advisory board members, collaborators, and everyone who shared guidance and advice with us on this journey.
